ABOUT US

UPM Raflatac is part of UPM, a leading forest industry company based in Finland. UPM delivers renewable and responsible solutions and innovates for a future beyond fossils across six business areas: UPM Fibres, UPM Energy, UPM Raflatac, UPM Specialty Papers, UPM Communication Papers and UPM Plywood. As the industry leader in responsibility, UPM is committed to the UN Business Ambition for 1.5°C and the science-based targets to mitigate climate change. EcoVadis has recognised UPM with a platinum score based on the company's sustainability performance in the categories Environment, Labour and human rights, Ethics and Sustainable procurement.

At UPM Raflatac, we develop innovative and sustainable labeling solutions, exquisite film laminates for Graphics Solutions and removable paper-based self-adhesive products. At our factory in Hagenow, Germany, we produce a large variety of sticky notes and related self-adhesive, paper-based products under Global Notes by UPM Raflatac. We are one of the largest internationally operating manufacturers of sticky notes with more than 30 years of experience and long-standing customers on all continents.

A strong and reliable partner for your sticky notes business

We offer you a broad range of high-quality products for office, school, home, and crafts that are sold under our own brand name INFO or as customised private label products.

We are passionate about paper-based products and continually work on new solutions for our customers. In addition to our classic sticky notes, we offer a large variety of self-adhesive products such as cubes, flags, and page markers, roll notes and much more – with a strong focus on quality made in Germany.

Our commitment to quality begins with the careful testing and selection of paper and other raw materials. Our water-based and solvent-free sticky notes adhesive is exclusively produced in-house and continually tested in our laboratory. Comprehensive quality control is maintained throughout the whole production process.

FSC™ CERTIFICATION

All of our paper-based Global Notes by UPM Raflatac are made from FSC™-certified paper (FSC C003094). The Forest Stewardship Council™ (FSC) defines sustainable forest management standards that are based on agreed principles and supported by environmental, social, and economic stakeholders.

FSC certification means that:

- The FSC-certified material is traced and credibly used in accordance with the FSC's chain of custody requirements.
- By choosing our FSC-certified sticky notes, you support responsible forest management.

SOLVENT-FREE ADHESIVES

All our UPM Notes are coated with a solvent-free adhesive that offers double the adhesion compared to standard sticky notes. Solvent-free adhesives use less energy and other resources during manufacturing compared to solvent adhesives. They are also free from hazardous air pollutants which pose a risk to human health and the environment. Our solvent-free adhesives are continually tested in our own laboratory to create sticky notes with optimal adhesion.

CUSTOMIZABLE PRIVATE LABEL PAINT ROLLS

One of our focuses is on tailor-made private label items. Our customers have the flexibility to customise the colouring rolls in many ways: Choose from various packaging options to suit your needs and add your brand's visual identity to your packaging. Decide whether to use our exclusive designs or to provide your own custom images for the colouring rolls.

Our Minimum Order Quantities varies depending on the specific customisation you require. Contact us to explore the possibilities and benefit from our expertise and commitment to sustainability and quality.

COLORING ROLLS

More info?
Watch the video!

The self-adhesive and repositionable Info Creative Colouring Rolls in different designs are the perfect alternative to ordinary colouring rolls. Simply fix the paper on a table to avoid slipping or stick the "endless" roll to the wall and let several "artists" draw at the same time. The self-adhesive and repositionable function of these items offers a wide range of applications.

- Sticks on paper and various surfaces
- Removable without residue and repositionable
- Easy removal from the pad
- Solvent-free adhesive, exclusively produced in-house and continually tested in our lab
- FSC™-certified
- Made in Germany
